Golf Course Sale Is Contemplated By Utility Board

The board of directors of the Truckee Public Utility District are seriously considering a sale of the new Shadow Valley golf course, completed last fall at a cost of more than $125,000.

After hearing one offer, the board decided to advertise for bids for the sale or lease-purchase of the property and facilities. The bids will be opened at a meeting May 8 at 8:30 p. m. and the board reserves the right to reject any offer made.

The offer to purchase was made Tuesday night by Pat J. O'Melia, a real estate broker of Whittier who offered $125,000 but wants a two-year lease prior to completion of the sale.

Any sale, the board agreed, would be contingent upon the facilities being operated as a public golf course.

Court Camblin, representing a Yuba City firm of engineers, appeared before the board relative to a proposed survey of the water system. No action was taken.

Butterfly Future In Doubt; School Seeks Collection

There is a very good chance that the famous butterfly collection which was taken to the court house in Nevada City a number of years ago for "safe keeping" may not be returned even though a suitable place for it is found here.

Miss Lizzie Glotzmier, artist and art critic, writing from her summer home in Spain, has suggested to the board of supervisors that the collection, now in the corridors of the court house, be placed in the Nevada Union Junior High School to serve as an inspiration for the younger students to engage in the study of nature.

The collection, recognized as one of the best in the state, was removed from the old Rocking Stone tower here when that structure was no longer adequate and offered little protection. Alex Robertson, then supervisor from this district, had the collection taken to Nevada City with the understanding that it be returned when and if a suitable place for its preservation could be found.

Dr. Leo Conti, Miss Glotzmeir's representative, will meet with the board of supervisors at the April 19 meeting for a discussion of disposition of the collection.

In the meantime, Supervisor H. G. Loehr said he would appreciate hearing from local interests and that he favored return of the collection to Truckee.

Lunardi To Aid In Skid Chain Racket

State Assemblyman Paul J. Lunardi has reiterated his stand "keep on top" of the so-called "chain monkey" situation in the mountain areas and will follow closely the investigations by the department of public works to stamp out abuses.

Lunardi is in receipt of a letter from Emerson W. Rhyner, attorney for the department, in which he said that after an investigation by the maintenance section of the division of highways it was found that the complexity of the problems and the division of opinion are such that it appears that a general, overall standard would not be workable.

Rhyner said that they propose to investigate each site where the problems have arisen on an individual basis, without regard as to what may or may not be the solution at any other particular location. The investigation will include terrain, road and shoulder structure, parking facilities and businesses involved.

"We are hopeful that this investigation will result in at least a partial solution to the problems in some areas," Rhyner wrote.

The Wolverines scored in the second inning when Skip Wilson tripled and scored on Randy Erickson's sacrifice fly, and again in the fifth on Bill Hutsell's base on balls, an error and Micky Strickland's single.

Reno scored two unearned runs in the fifth and two more in the sixth.

The pitchers were in very good form for so early in the season. Doug Doolittle pitched four outstanding innings, allowing no runs and one hit while striking out five and walking none.

Dave Decker was the victim of two errors and one ball which was lost in the sun. He gave up four runs, only one earned and three hits, while striking out five and walking one in the two innings he worked.

CRASHES PREVENT LOCAL CAR WINNING

Although during the trials, Ron Gautsche's famous hardtop car broke the track record, three crashes which damaged the vehicle prevented his driver, Arlin Robinson of Reno from placing in the racees at Roseville Sunday.

Lakes Expected To Fill As Water In Snow Is Normal

Both the soil conservation service and the Truckee Basin Water Committee at Reno report the early April snow surveys have confirmed predictions that a three-year drought in the area has ended.

They stress that while the water supply will be adequate this summer, care should be used in its use to begin building up storage water supplies which were depleted during the past three years.

The level of Lake Tahoe is expected to peak at slightly less than 6,226 feet above sea level, about six inches higher than the 15 year average.

Donner Lake will fill to its 9,500 acre feet of water and Independence Lake will do the same with 17,500 acre feet of water. Boca Reservoir, which held only 4,000 acre feet of water on April 1, is expected to fill to its 40,800 acre feet.

The Truckee River, which dwindled to a trickle late last summer, is expected to carry about 350,000 acre feet of water, 134 per cent of the 15 year average.

Most snow survey courses show a water content of about 120 per cent of normal.

Semi-pro Baseball Team For Region Being Organized

Preparations are being made for the reestablishment of the Truckee-Tahoe Mountaineers semi-professional baseball team.

The team, which was disbanded in 1959 because of not having a home field, played in the Sierra-Nevada Baseball League, and was a strong contender continuously.

Two local young men, Craig Robinson and John Firpo, will attend an organization meeting of the league Sunday, April 15 in Fallon, Nevada, to find out the chances for re-entry of the Mountaineers.

Robinson and Firpo have contacted various local people who have pledged equipment and materials to help build a playing diamond on land adjacent to the Shadow Valley golf course.

Local organizations also have indicated they will support the team if it is reformed and hopes are high that local merchants will support the reorganization of the ball club.

Phone Hearing Is Slated In Truckee

A public hearing on the application of the Pacific Telephone and Telegraph Company for authority to establish the North Tahoe exchange and to establish extended service between exchanges in this district, including Truckee, will be held here April 26 at 10 a. m. at the Truckee Justice Court.

The meeting will be conducted by Commissioner Fox and Examiner Porter of the Public Utilities Commission of California. All interested parties are invited to be heard.

The application of the company provides for a direct dialing system connecting the exchanges in the Truckee and North Tahoe areas. A slight increase in rates would be involved but no toll charges made for local calls. Exchanges proposed to be combined would be Truckee, Homewood, Tahoe and Brockway.

An example of the rate increase would be that a one party business phone would go from $7 to $7.75 monthly and a one party resident phone would advance 40 cents a month from $4.40 to $4.80.

ICE AT DONNER STILL HANDICAPS FISHING

Although Donner Lake is now legally open to fishing, the surface is still well covered with ice and will continue to be for several days. A few venturesome nimrods are fishing around the shore where the ice is melting away but having little success. Game Warden Charles Spillner is still watching to determine if any damage was done to the fish as a result of a large quantity of the oil being spilled into the water. All signs of the oil have disappeared, he said, and it is doubtful if there was damage to any extent, although a close survey is being maintained.

School Bond Vote Slated In District For Next Tuesday

Voters of the Tahoe Truckee Unified School District will go to the polls Tuesday to decide whether or not the district shall be bonded to the extent of $2,000,000 to provide expanded facilities to keep pace with the fast growing district.

At the special election polls will be kept open from 7 a.m. to 7 p.m. at the five precincts.

Precinct No. 1, comprising Placer County general precincts of Cisco and Summit and that portion of Nevada County general precinct of Soda Springs, will be at the Donner Trail school.

Precinct No. 2, comprising the area of Placer County general precinct of Brockway will be at the Kings Beach school.

Precinct No. 3, comprising the Floriston general precinct will be at the post office in Floriston.

Precinct No. 4, embracing the general election precinct of Tahoe, will be at the Tahoe Lake school.

Precinct No. 5, comprising Donner Lake and Truckee will be at the old elementary school in Truckee.

District Superintendent John S. Corbin and the school board have been working for more than eight months on a survey of the area and are agreed that the district is growing at a rapid rate and will continue to grow in future years. These facts, plus overcrowded conditions now existing in some schools, have made it necessary to call for the bond issue to finance building expansion, Corbin pointed out.

Corbin said that plans calls for an addition of seven classrooms at Kings Beach, a new site for a complete school between Kings Beach and Tahoe City, while in Truckee a new six classroom addition is proposed for the present elementary school, bringing it to maximum capacity.

The bonds will also provide for bringing the high school up to maximum capacity by the addition of classrooms, music facilities and a combined auditorium and girls' gymnasium.

During the past several weeks public meetings have been held and brochures distributed calling attention to the election. A number of organizations, including the chambers of commerce at North Tahoe and Truckee have gone on record favoring passage of the bonds.

A two-thirds majority is required for passage and everyone is urged to vote next Tuesday

DIVOT-DIGGERS

By BETTY KIELHOFER

President Bob Moore says he has had terrific reception to the Grass Valley tournament coming up next Sunday, the 15th. If you haven't been contacted and want to go, please call Bob Moore or Mary Ann Haswell so you'll be paired with a partner. The Grass Valley golfers really go all out for us with plenty of food and fun for all. Don't be concerned if you are new at the game. You will be paired with someone who has a similar handicap and will feel right at home. All you have to remember is that it will be quite crowded and everyone should make an effort to move right along.

The fellows usually go down earlier and have ordinarily played their first nine before the ladies arrive and I imagine it will be the same this year. Perhaps you noticed that the date for the game was for the 5th of May in last week's paper but some fast changes were made so tell all your friends that i tis not the 5th but instead the 15th of April, next Sunday.

Perhaps some of you remember last year when we were working on the ball park on the short-cut. We had cleared the trees and hauled in 40 truck loads of fill at the cost of $1,500 when we were suddenly informed that the ground did not belong to the Public Utility District but instead was owned by the sanitary district. Numerous problems then arose and we were forced to stop working on it.

Now some of the ball players have attended the sanitary board meeting and have secured a lease on the property so once again we are able to start work on it and if we hurry, the ball park can be used this year by the town team. They are all enthusiastic about once again having a place to play and we should all get behind the project and finish it.

The main thing that still must be done is top-soil hauled in and compacted. Later on bleachers can be erected. We will need trucks, a loader and a grader to complete the job so any of you who are acquainted with owners of such equipment, please ask them to help.

There will be plenty of volunteers to drive it and just as soon as the snow is gone in that area, they will be ready to move. It is a perfect spot for a diamond and the biggest job is done so let's all get behind it (see Craig Robinson or Frank Giovannoni) . . . the boys have also been collecting money from the business merchants for baseball equipment and so far have been received 100 per cent. Most everyone feels it's a very worthwhile contribution.

See everybody in Grass Valley.

LAST MINUTE BULLETIN: Bob Moore called to say he would post the pairings and tee-off times in the Gateway Bottle Shop by Wednesday noon. Be sure to check for yours and if it is not convenient, there will still be time to make a fast switch with someone. The low-handicap fellows will start at 9 a. m. and the women somewhere around 10:30 to 11. Pairings will be matched as closely as possible according to handicap.

TRUCKEE RESIDENTIAL ELECTRIC RATES AMONG THE LOWEST IN THE STATE

Following is the result of an investigation and report of the operations of this District made by Consulting Engineer Edwin Fleischmann of San Francisco, in 1959, at the instigation, by petition, of a group of citizens of Truckee. The report states, that of all communities throughout California served by Private Electric Companies, ranging in population between between 2,500 and 3,000; 16 served by Pacific Gas & Electric Co.; 6 by Southern California Edison Co.; and 4 by California Oregon Power Co.; 3 by San Diego Gas & Electric Co.; and 1 by California Electric Co.; the average cost for Residential Electric Service as compared with Truckee Rates was as follows:

		Private Companies	Truckee PUD
25 KW	Average	$ 1.86	$ 1.22
40 KW	Average	2.56	1.89
100 KW	Average	4.52	4.59
250 KW	Average	7.80	7.20
500 KW	Average	11.00	11.70

This comparison is taken from the Federal Power Commissions listing of "Typical Residential Electric Bills" in California for communities of population of between 2,500 and 3,000. No federal report is made on communities of less than 2,500 in population.

Publicly Owned and Operated Electric Systems are not included in the Federal Report. All such systems are operating in larger populated areas; Truckee being the smallest community in California owning and operating a Publicly Owned Electric System.

SENATOR KUCHEL TO SEEK REELECTION

SACRAMENTO—(CNS) — Senator Thomas H. Kuchel, announced he will be a candidate for re-election to a six-year term in the U. S. Senate.

Kuchel has served for the past four years as assistant floor leader for the Republicans in the senate. Generally, however, he has been considered a moderate Republican.

"A public office, in my view, continues to be a public trust," Kuchel said in his announcement statement. "I am an American senator. My duty is to my fellow Americans—all of them. My first concern is to our country and its preservation.

Kuchel said he attempted to use his "own best judgment" in making decisions, but uses the Republican national platform as a guide, "and I follow the dictates of my conscience."

After appeal and hearing thereon is had, the determination of the Board of Directors, as a result thereof, shall be final and conclusive, and in the event that a determination be made, that any charge or amount previously paid under protest be refunded, such refund shall be made forthwith.

SECTION 9: If any of the provisions of this Ordinance, or the application thereof to any person or circumstance, is held invalid, such decision shall not thereby affect the other provisions of this Ordinance.

Nothing herein shall be construed to limit the authority of the Board of Directors to amend, supplement or change this Ordinance, or any supplements or amendments thereof, or to change, modify or alter any rules, regulations or other determinations made pursuant thereto.

SECTION 10: EFFECTIVE DATE OF ORDINANCE: This Ordinance shall become effective 30 days after the date of passage thereof, and shall be published twice within 15 days after the date of passage, in the Sierra Sun, a newspaper of general circulation, printed and published within the County wherein said District is located; provided, however, that the water rates and charges now in effect shall remain in effect until May 1st, 1962, on which date the water rates and charges hereinabove set forth and referred to shall become effective.

DONNER DOINGS

By VIRGINIA O'BEAR

Well, we did it. We went down to see Mom and Pop O'Bear in Santa Rosa and my sister in Greenbrae. We were only gone for a few days but what a different perspective we have now on many things. To start off with, we got to see grass along the way. Then came the beautiful California poppies, the lupins, the buttercups, the mustard colored fields for miles and miles. Then arriving near Santa Rosa, we enjoyed the fruit trees all covered with blossoms. After visiting in Santa Rosa with all the folks, we went on down to Greenbrae. After visiting there we took the children to the zoo and through the museums and playland and also the Japanese tea garden which I enjoyed the most because everything is in full bloom. May I suggest that any of you planning a trip to the city soon be sure and go through the tea garden at Golden Gate Park as it will take your breath away. We all came home clean, I might add. Sure glad to find water upon arrival.

I have been hearing good fishing reports and saw several boats out on the narrow strips of thawed out Donner Lake. It shouldn't take too long now for the ice to break up. Some of the old timers around here say that if we get a good strong wind that ice will pile up a mile high. Sure hope it doesn't pile up on people's piers.

A lot of you have signed the petitions for the Donner Lake subcontract station and for those of you who havent and want to, do it before April 15. The petitions will be turned in to our local postmaster on April 16 and he will send them to the postmaster general in Washington for approval. Stop by Rex Reid's Builders Service Center or see Marcella Corro.

Don't forget to stop by the Truckee Public Utility office and register for voting. The deadline is today.

I heard from Dollie Harris this week and she says she keeps up on what all of us are doing because she takes the Sierra Sun. She would like to hear from some of you though and give her a few particulars that doesn't get in the paper. She and Virgil are now living at North Highlands and like it very much. It is near the McClellan Air Force Base and Dollie has a good job there that she likes very much. Their son, Willie, is a senior this year and you can just bet Dollie is proud of him with his A's and B's. If you want Dollie's address, just give me a call.

The Auxiliary of the Donner Lake Volunteer Fire Department will meet April 19 with many things on the agenda. The most interesting of course will be the Miss Donner Lake contest. Hostesses Claudia St. Claire, Jo Ann Affeldt and Maybelle Vahey will be calling all of the members as to

INCLINE VILLAGE — Start of another major construction activity at Incline Village was signalled this week with ground breaking for the first two structures in the multi-million dollar United States Plywood Corp. lakeshore homes project, company officials disclosed.

The two buildings will comprise a total of eight units, and are the first of an initial 36-unit complex along the Lake Tahoe shoreline. Ultimate completion of the project calls for two score buildings comprising 150 to 200 lakeshore homes.

The Silver Belt ski classic, held at Sugar Bowl last weekend, was the scene for much spectacular skiing and local trophy winners were Jimmy Heuga, Jim Baker, Babette Haueisen, Pete Klaussen and Hans Osterud. They contributed much to the spectacular skiing with Heuga placing fifth in the regular division while Baker, Klaussen and Osterud placed first, second and fourth in the veterans' division. Miss Haueisen was fourth place trophy winner in the women's division.

A weekend of competitive skiing was enjoyed last Saturday and Sunday at the June Mountain races by 20 local junior racers from the Lake Tahoe Ski Club.

The Thunderbirds captured a majority of the trophies with first places going to Sandra Poulsen (both slalom and giant slalom), Dianne McBride (both slalom and giant slalom), Karen McBride, Greg Jones, Mark Sullivan, Eric Poulsen, Lance Poulsen, Paul Sullivan. Second place honors went to Leslie McBride (both events), James Long (both events), Dick Nielsen (both events) and Larry Lindsey. Mark Rivard scored a third place and others placing were Doug Lindsey, Jon Caulkett and Jim Caulkett. A great deal of applause went to Jean Palmer who bravely went through the gates despite a number of mishaps.

Accompanying the racers on the trip were Mr. and Mrs. Wayne Poulsen, Mr. and Mrs. Don Snyder, Mr. and Mrs. Larry Lindsey, Ned Long, Mr. and Mrs. Dave McBride and Mrs. John Palmer.

where and the time is 7:30 p. m. Plan to attend and take a friend or neighbor. The officers board meeting will be at the home of Ozella Slate, Monday evening at 8 o'clock on April 16. All members are invited to this at any time also.

Since I've been gone most of the week I haven't heard much about people so hope to report a little more next week. I do know the Art Johnsons were up over the weekend as well as the Boehmers and I did see Harold Carles out fishing over the weekend. Have to check and see if he caught anything. Our two small fry keep trying but so far no luck.

Do all your burning this week as very soon now you will need a burning permit. Sounds like summer is nearly here, doesn't it? I'm getting summer fever. I won't say spring fever 'cause spring already passed us by.

JOHNSON ANNOUNCES LAKE WATER STUDY

Congressman Harold T. (Bizz) Johnson of the 2nd, mountain-valley, district announced that a $65,000 study of municipal water needs and supplies will be made in the Lake Tahoe area.

The basinwide study to be made jointly by the bureau of reclamation and the El Dorado County Water agency was requested by the local government agency and will be financed by the two groups on a matching basis.

The secretary of the interior has approved a contract for the study and sent it to California for signature. The completion date set by the bureau of reclamation is mid 1964.

"Rapid population growth around the lake area has made local public agencies concerned about future municipal water supplies," Congressman Johnson said. "Lake Tahoe has increased at a rapid rate with a population gain of more than 30 times expected in this century.

"Local water supplies are not sufficient to meet the demand. We must seek new sources of supply. This is a fine example of the full cooperation by the bureau of reclamation in working with agencies of local government in trying to solve the water development problem. I was very proud to have had a hand in expediting this agreement."

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA
APPLICATION NO. 44097
(Amended)

Application of THE PACIFIC TELEPHONE AND TELEGRAPH COMPANY, a corporation, for authority to establish the North Tahoe exchange and to establish extended service between certain exchanges in the vicinity of Lake Tahoe.

NOTICE OF HEARING

NOTICE IS HEREBY GIVEN that the Public Utilities Commission of the State of California has set the hearing in the above entitled matter before Commissioner Fox and Examiner Porter for Thursday, April 26, 1962, at 10:00 a. m. in the Justice Court, Commercial Row, Truckee, California, at which time and place all interested parties may appear and be heard.

EXCHANGE STUDENT

(Continued from Page 1)

Barker and Jack Sigesmund.

Second, who chooses the student? It may be a boy or girl between 16 and 18. He or she may come from any 50 countries. The student is chosen not only by academic qualities but for personal ones too. The student is always a high school senior.

Third, how much does it cost? TNT's Girls League and the Tahoe Squaws raised the $650 necessary for the participating contribution for A.F.S. This will be used toward bringing a foreign exchange student to our halls next year, who will graduate with the class of '63. This contribution from Girls League and the Tahoe Squaws is not all that's needed. Every organization will be helping the student through the year. Possibly the student body will donate a student body activity card; the senior class may pay for graduation expenses; annual staff may pay for the annual; and other organizations may pay for his or her school lunches.

Fourth, what are the qualifications for an A.F.S. family?

A heart—large enough to share a portion with another child from another land for a year—and probably forever.

A mind—open to the different life and culture the student will bring with him, open to accepting him for his differences and not for his similarities.

And a share of laughter and gaiety to shrink the problems which may come up and to strengthen the bonds of communication.

The local A.F.S. chapter itnerviews several families, and sends in the applications, but the main New York office makes the final decision as to what family the student will reside with. Any family interested in having a foreign exchange student at their home, please contact Mrs. Barbara Grimm, LUther 7-3574. But you must also realize that if you are chosen, you must support the student for the school year.

A.F.S. regulations concerning U. S. chapters are stated in the constitution and preamble. The preamble is as follows: "the size and growth of the American Field Service scholarship programs place an increased responsibility on all those connected with it, and the determination that the programs will be more efficiently administered if the relationship between the head offices in New York and the chapters representing the American Field Service in various localities be formalized and their respective responsibilities be more clearly defined."

If you have any questions about the program, ask any member of the Tahoe Truckee chapter. They will be glad to furnish you with more information.

Santa Barbara is called the world capital for cymibidum orchids.

LAKE TAHOE NAMED OVER 100 YEARS AGO

A bit of interesting history came to light in the press recently when it was reported that 100 years ago this date the California assembly was discussing Mr. Benton's bill to change the name of Lake Bigler back to its original Indian name, Tahoe, which signified Big Water. An amendment to call it Lake Stanford was defeated.
